

Some counties in Texas are currently suffering from a measles outbreak.

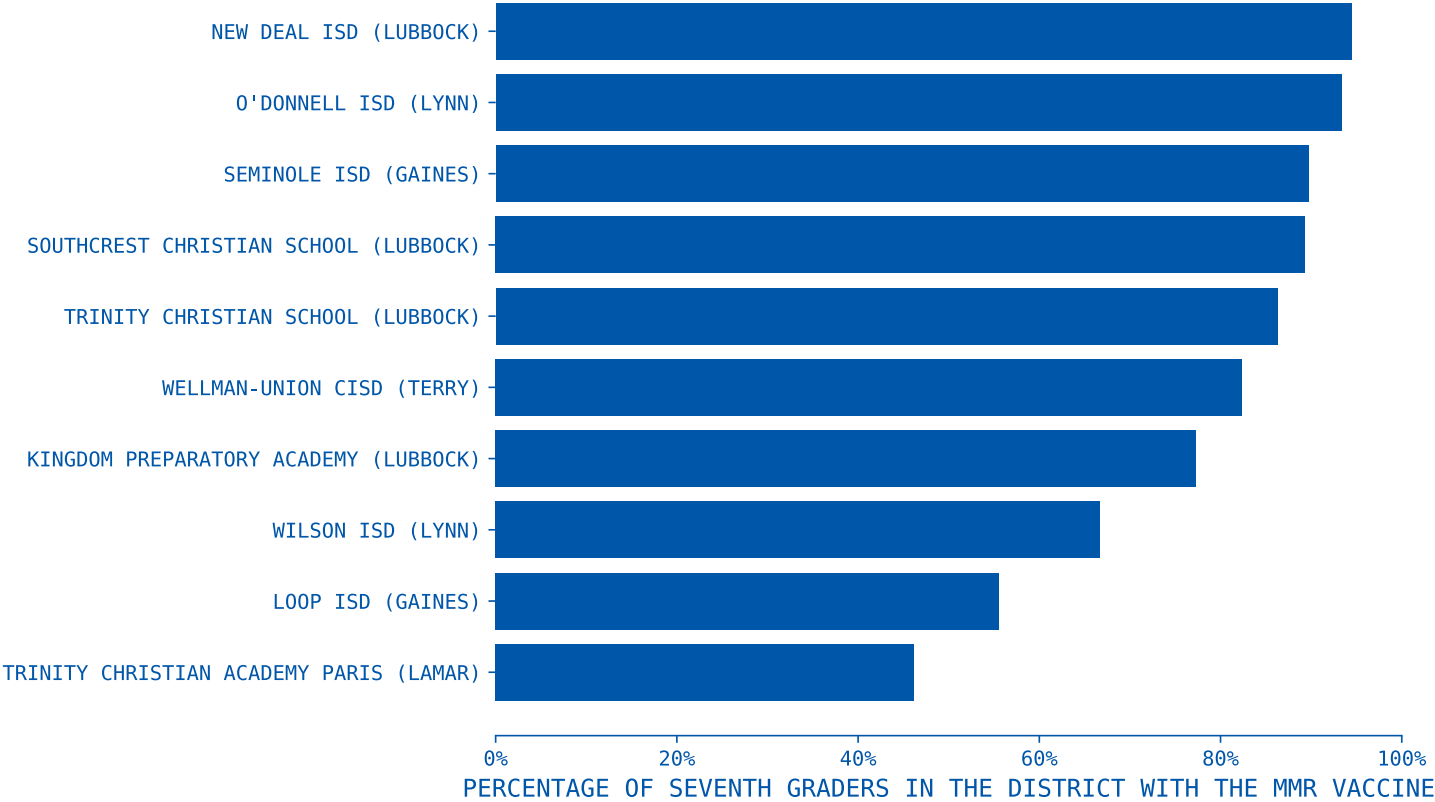

In response, the Texas Department of State Health Services promoted their online vaccination data; click on the sentences on this page to see some helpful websites.

This infographic was created by Kiron Ang!

This data reveals that some schools in affected counties have low seventh grade vaccination coverage for the MMR vaccine.

Texans' vaccine scepticism is caused by a lack of trust in the greedy healthcare industry.

Please vaccinate your children, because "almost everyone without immunity will get measles if exposed to the virus" and "there is no specific treatment to cure measles".
